

PLATFORM INTEGRATIONS

Create more relevant and engaging emails, streamline workflows, and get your emails out the door faster

Image DAMs

Reduce design and creative resource dependencies by making it easy for team member to search, select, and quickly add brand-approved assets to emails.

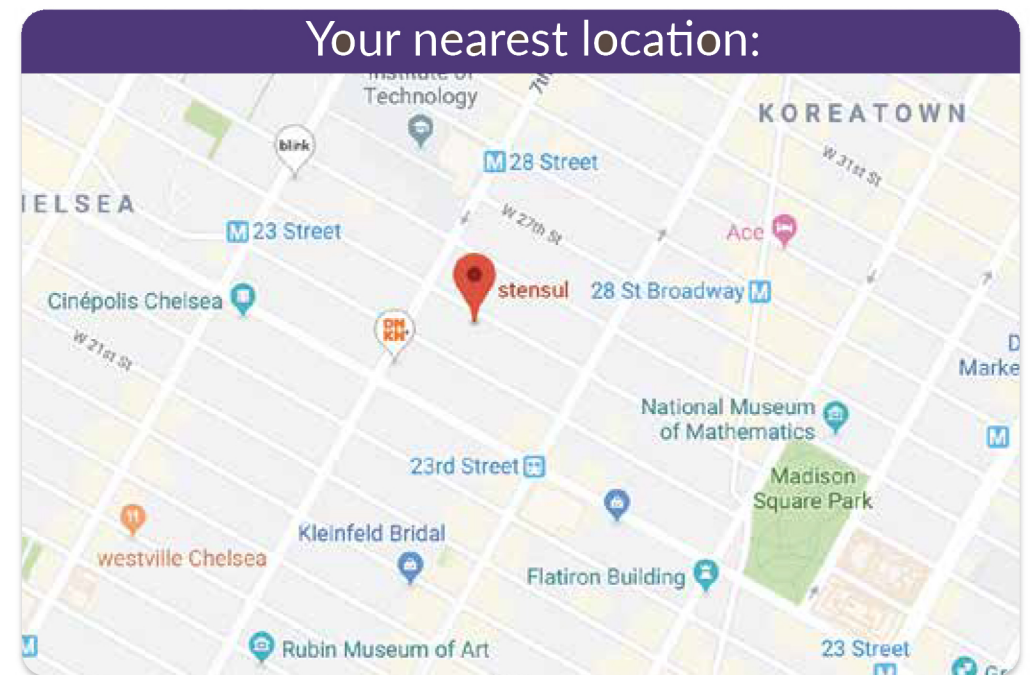

Owned Media Channel Content

Automatically pull fresh content from your social media accounts, company website, blog, event pages and other owned media into your emails.

Real-Time Content & 1:1 Personalization

Seamlessly incorporate real-time experiences to make emails more relevant and engaging without ever having to touch code.

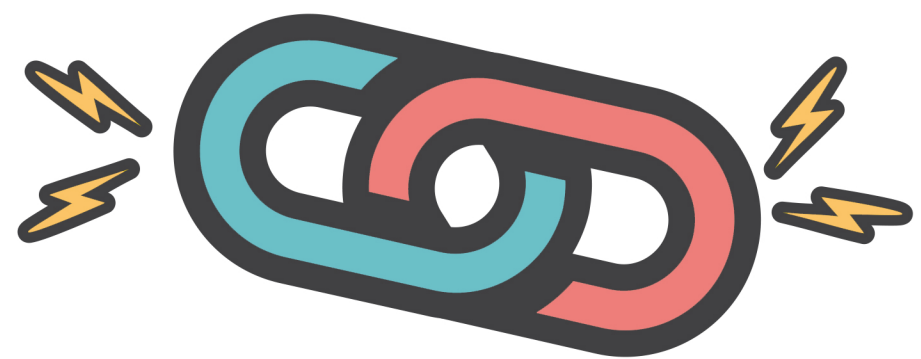

Work Management Software

In just a few clicks, send an email to your workflow management system for approval, push to your marketing cloud or ESP for deployment, and mark the project as complete.

Marketing Clouds & ESPs

Push emails you build in stensul to your marketing cloud or ESP via one-click integrations.

Link Builders & Tracking

Automatically append standardized tracking codes to your links and measure campaign performance in your analytics suite.
